DESCRIPTION

Quarried on Monte Coto, located in the Spanish Valencian community, Crema Marfil is a marble with warm and welcoming colours, synonymous with elegance and modernity. Its rare gold-colored veins embellish this material in irregular movements, depending on the extraction area. Thanks to its high impact resistance and its low permeability coefficient, it is the first choice by sector specialists who recommend it in a glossy finish for interiors, and in a smooth finish for exteriors.

Applications: claddings, floor tiles, kitchen and bathroom vanity tops

Finishing: Brushed, Bushhammered, Flamed, Honed, Polished, Sandblasted, Waterjet
