DESCRIPTION

Elegant White is a natural stone belonging to the marble family, quarried in Greece. It stands out for its compact and durable structure, making it ideal for high-end applications. The surface is characterized by jagged and irregular veining and brecciated patterns in cool, elegant tones. Grey is the predominant color, enriched by lighter shades, more intense variations, and at times subtle brownish notes that add depth and movement to the material. Thanks to its refined aesthetic and the natural uniqueness of each slab, Elegant White is particularly suitable for the creation of prestigious and elegant interior spaces, where beauty and personality take center stage.

Applications: claddings, floor tiles, kitchen and bathroom vanity tops

Finishing: Brushed, Bushhammered, Flamed, Honed, Polished, Sandblasted, Waterjet

SCS: *Stone Care System highly recommended for a longer duration.*
