DESCRIPTION

Café Mocha is a quartzite from Brazil, distinguished by its brown and beige background crossed by irregular veins in darker shades, including black and sometimes white. From a technical standpoint, it is highly resistant to scratches and heat, less porous than traditional marble, and suitable for certain outdoor applications as well. It pairs beautifully with natural woods, metals such as brass or gold, and neutral color palettes, making it an ideal choice for those seeking an elegant, striking material capable of becoming the focal point of a space

Applications: claddings, floor tiles, kitchen and bathroom vanity tops

Finishing: Brushed, Bushhammered, Flamed, Honed, Polished, Sandblasted, Waterjet

SCS: *Stone Care System highly recommended for a longer duration.*
