DESCRIPTION

A premium marble with a uniform gray background, characterized by blue hues and white veining. Quarried in the French Alps, specifically in the Savoy region of southeastern France, this material is highly sought after by industry specialists due to its limited production and exceptional hardness. Its refined elegance and deep, dark appearance make it an excellent choice for interior applications such as flooring, wall cladding, and staircases. Although it belongs to the marble family, the hardness and low water absorption of this stone also make it suitable for exterior design projects, including paving and swimming pools.

Applications: claddings, floor tiles, kitchen and bathroom vanity tops

Finishing: Brushed, Bushhammered, Flamed, Honed, Polished, Sandblasted, Waterjet

SCS: *Stone Care System highly recommended for a longer duration.*
