## DESCRIPTION

Scandinavian Green stands out for its exceptional resistance to impacts and external agents, making it suitable even for high-stress applications. Its surface displays a refined chromatic spectrum spanning the entire range of green hues, with deep and shifting shades that evoke the luminous beauty of the Northern Lights. The natural interplay of colors adds movement and exclusivity to every slab, ensuring that each installation is truly unique. In terms of structure and technical performance, Verde Lapponia shares characteristics similar to those of quartzite, offering excellent compactness, durability, and workability. Ideal for flooring, wall cladding, kitchen countertops, and bathroom surfaces, it represents a premium solution for residential and contract projects that demand elegance, strength, and a distinctive material identity.

**Applications:** claddings, floor tiles, kitchen and bathroom vanity tops

**Finishing:** Brushed, Bushhammered, Flamed, Honed, Polished, Sandblasted, Waterjet
