DESCRIPTION

Travertino Ocean Blue is a sedimentary limestone rock belonging to the Travertine family, but which stands out for its calm colors that recall those of the sea. The irregular streaks that cross the slabs vary from blue to gray and brown, on the beige background that has always distinguished this material. The compactness of the marble makes Travertino Ocean Blue an excellent choice for the creation of interior and exterior environments, as well as a decorative element for design objects of various kinds.

Applications: claddings, floor tiles, kitchen and bathroom vanity tops

Finishing: Brushed, Bushhammered, Flamed, Honed, Polished, Sandblasted, Waterjet

SCS: Stone Care System highly recommended for a longer duration.
