## DESCRIPTION

Beige colored marble quarried in Italy, in the province of Brescia. Its breccia color is subject to various shades with warm and enveloping tones. Its polychromy, combined with the presence of sediments, make the slabs obtained from this material particularly suitable for open-match installation. Its slow formation process has created a robust material, therefore suitable for use as internal and external flooring and wall coverings.

**Applications:** claddings, floor tiles, kitchen and bathroom vanity tops

**Finishing:** Brushed, Bushhammered, Flamed, Honed, Polished, Sandblasted, Waterjet

**SCS**: *Stone Care System highly recommended for a longer duration.*
