Emerald Green

Quartzite • 330 x 195 x 2 cm

TECHNICAL INFORMATION

Sizes: **330 x 195 cm**
Thickness: **2 cm**
Applied finishing: **Polished**
Cod: **BG17426**
Type: **Quartzite**
Origin: **Brazil**
Color: **Green**
Prices range: **Premium**

DESCRIPTION

Emerald Green is an elegant quartzite extracted in Brazil, with a cloudy structure of a pale green color, characterized by thin brown and gold veins that cross the slabs in irregular branches. The result is a contrast of bright and pleasing colors to the eye, able to reflect sunlight and animate the surrounding environment. The hard surface, its compactness and resistance to abrasion and etching make this natural stone an excellent choice for anyone looking for an elegant material that is at the same time resistant and compact. Floors, coverings, kitchen and bathroom tops are just some of the creations for which Emerald Green is preferred every day by artisans and professionals.

Applications: claddings, floor tiles, kitchen and bathroom vanity tops

Finishing: Brushed, Honed, Polished, Sandblasted
