DESCRIPTION

Cristallo Vitrium is a quartzite extracted in Brazil with a cream-colored background and lightly crossed by thin amber veins. A natural stone with great shine, it is used in construction for the creation of interior projects, such as floors in bright environments or wall coverings with the possibility of being backlit to enhance their splendor through plays of light. Its compactness and resistance to acids also allows it to be used as bathroom/kitchen tops without fear of wear. Recommended in a glossy finish, Cristallo Vitrium is an excellent choice for anyone who wants to animate a refined environment with refined elegance.

Applications: claddings, floor tiles, kitchen and bathroom vanity tops

Finishing: Polished
