DESCRIPTION

Travertino Green is a sedimentary limestone that has been used since ancient times for both public and private works. In this variation, the traditional beige gives way to a range of green shades that run horizontally across the surface of the material. Used in both interior and exterior projects, it is an excellent choice for anyone looking to give a modern twist to a classic material.

Applications: claddings, floor tiles, kitchen and bathroom vanity tops

Finishing: Brushed, Bushhammered, Flamed, Honed, Polished, Sandblasted, Waterjet

SCS: *Stone Care System highly recommended for a longer duration.*
