DESCRIPTION

European limestone with a cloudy structure. Its uniform color is beige, which makes this material a versatile tool for furnishing both internal and external environments. Its particular resistance to bad weather makes Vratza a material that does not suffer from continuous trampling or any changes in temperature. For this reason, in addition to the creation of internal environments such as flooring and wall coverings, it is often used for external environments.

Applications: claddings, floor tiles, kitchen and bathroom vanity tops

Finishing: Brushed, Bushhammered, Flamed, Honed, Polished, Sandblasted, Waterjet

SCS: *Stone Care System highly recommended for a longer duration.*
