## DESCRIPTION

Brazilian quartzite with a strong scenic presence, quarried from lithotypes of high structural density. Its surface is crossed by dynamic veining that weaves together earthy brown tones, deep blacks, and creamy whites, creating patterns that recall the organic texture of an ancient tree bark—majestic and resilient against the passage of time. Particularly enhanced by brushed and honed finishes, this quartzite fully expresses its dense and sophisticated nature, becoming a sought-after material among designers and specialists who appreciate its balance between technical performance and material elegance.

**Applications:** claddings, floor tiles, kitchen and bathroom vanity tops

**Finishing:** Brushed, Bushhammered, Flamed, Honed, Polished, Sandblasted, Waterjet
