DESCRIPTION

Patagonia Stromboli is a Brazilian quartzite that embodies the millennia-long interplay of pressure, heat, and geological transformation. Its orange and black veining interlaces with a volcanic sense of dynamism, while the crystalline matrix reveals the purity and transparency typical of high-quartz metamorphic rocks. Its remarkable density, resistance to chemical agents, and chromatic stability make it a highly performing natural stone, while its visual language has the power to transform architecture into a sensory and symbolic experience.

Applications: claddings, floor tiles, kitchen and bathroom vanity tops

Finishing: Brushed, Bushhammered, Flamed, Honed, Polished, Sandblasted, Waterjet, Waterjet brushed

SCS: *Stone Care System highly recommended for a longer duration.*
