DESCRIPTION

Kianda Breath is an African marble characterized by a chromatic composition in green and white tones. Its structure features pronounced diagonal veining, formed by metamorphic processes that give the stone a dynamic appearance and a strong visual identity. Its physico-mechanical properties—including high impact resistance, good dimensional stability, and excellent tolerance to thermal fluctuations make it a suitable material for both interior and exterior construction applications, ensuring durability and consistent performance over time.

Applications: claddings, floor tiles, kitchen and bathroom vanity tops

Finishing: Brushed, Bushhammered, Flamed, Honed, Polished, Waterjet

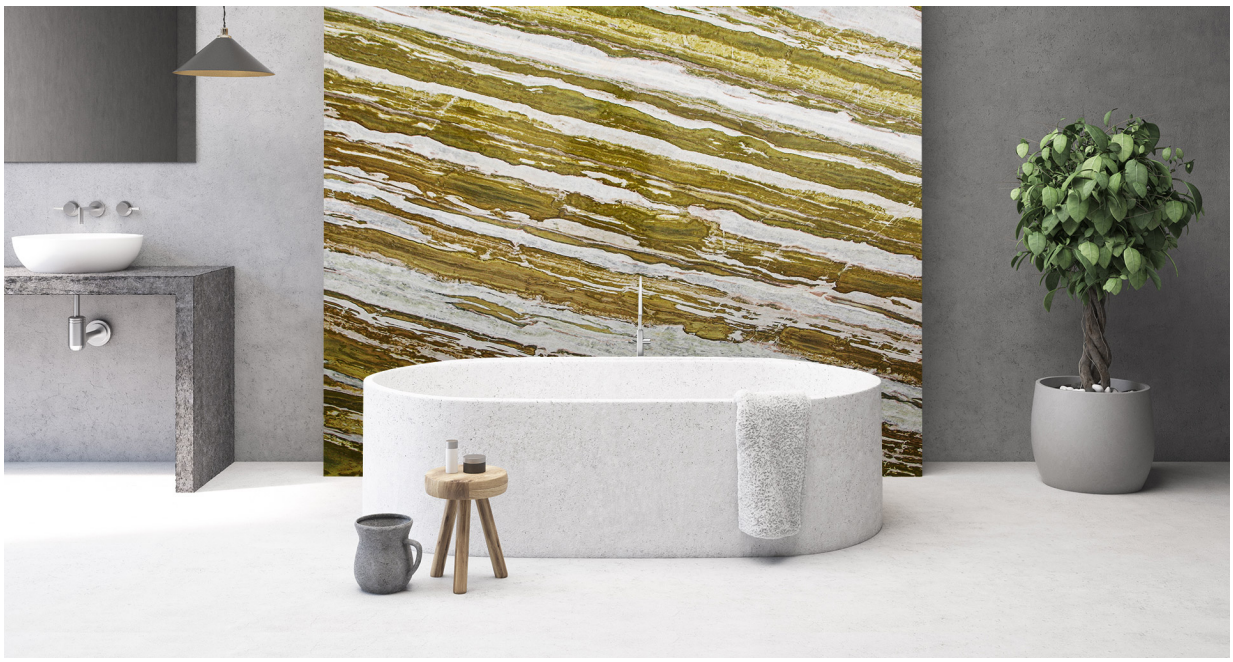

SCS: *Stone Care System highly recommended for a longer duration.*
