Jasper Red

Quartzite • 325 x 200 x 2 cm

TECHNICAL INFORMATION

Sizes: **325 x 200 cm**
Thickness: **2 cm**
Applied finishing: **Polished**
Cod: **I5982**
Type: **Quartzite**
Origin: **Brazil**
Color: **Red**
Prices range: **Premium**

DESCRIPTION

Jasper Red is a natural quartzite of Brazilian origin, characterized by a compact, fine-grained matrix with a dominant deep-red coloration. Its structure features concordant veining in similar tones and discontinuous white streaks, attributable to the presence of silicate accessory minerals. The quartz content in this lithotype can exceed 90%, giving the material excellent mechanical strength, high surface hardness, and outstanding resistance to weathering. Thanks to these technical properties, Jasper Red is suitable for architectural applications both indoors, such as cladding, kitchen countertops, flooring, and furnishing elements, and outdoors, including ventilated facades, outdoor paving, and surfaces subject to heavy wear.

Applications: claddings, floor tiles, kitchen and bathroom vanity tops

Finishing: Brushed, Bushhammered, Flamed, Honed, Polished, Sandblasted, Waterjet
