## DESCRIPTION

Saint Laurent is a natural stone belonging to the marble category, characterized by a dark and deep coloration. It is supplied in slabs predominantly black or dark brown in tone, crossed by irregular white and golden veining, unevenly distributed across the surface. From a technical standpoint, Saint Laurent marble is distinguished by good structural compactness and high mechanical strength, features that allow its use in a wide range of applications. Thanks to its physical and aesthetic properties, Saint Laurent is particularly suitable for flooring, wall cladding, staircases, countertops, furnishing elements, and high-end decorative surfaces, ensuring durability, long-term stability, and a high aesthetic value.

**Applications:** claddings, floor tiles, kitchen and bathroom vanity tops

**Finishing:** Bushhammered, Flamed, Honed, Polished, Sandblasted

**SCS:** Stone Care System highly recommended for a longer duration.
