DESCRIPTION

Marble of Asian origin characterized by a bright white background, crossed by bold and well-defined golden veining, with an irregular and occasionally branching pattern. This natural texture gives each slab a high degree of uniqueness, making the material particularly valued for high-end applications. From an aesthetic perspective, the contrast between the white base and the warm golden tones creates elegant and dynamic surfaces, enhancing spatial perception and effectively reflecting both natural and artificial light. Gold Dune is mainly intended for indoor applications, where it is used for prestigious flooring, wall cladding, large and luminous atriums, staircases and circulation areas, as well as interior design elements and furnishing accessories.

Applications: claddings, floor tiles, kitchen and bathroom vanity tops

Finishing: Brushed, Bushhammered, Flamed, Honed, Polished, Sandblasted, Waterjet
