DESCRIPTION

Artic Blue is a Turkish-origin dolomite distinguished by a cool and refined color palette. Its surfaces are characterized by irregular shades of blue, light blue, white, and black, creating visual depth and making each slab unique and impossible to replicate. The material's compact structure and the natural variation of its texture enhance its aesthetic value, making it a striking choice for contemporary design projects. Thanks to its technical properties, Artic Blue is a versatile natural stone, suitable for a wide range of indoor and outdoor applications, ensuring reliability, durability, and long-lasting aesthetic continuity.
